

Village of Glen Ellyn

* Property tax increases for debt service in 2002, 2004 and 2005 result from the issuance of \$18 million in General Obligation bonds (issued over three years) related to a 2000 voter approved referendum for street and storm sewer improvement projects throughout the Village. Following a public review process of the 20 year street improvement program conducted by the Village's Capital Improvements Commission, beginning in 2010 a portion total property taxes representing approximate annual reductions in debt service will be allocated to the street program.
