RESIDENTIAL BURGLARIES

Glen Ellyn Police are investigating several residential burglaries throughout the Village. The most recent series of these incidents occurred on the north side of the Village along the Geneva Road corridor between Main Street and Western Avenue. In cases where the door to the home was unlocked, the suspect(s) entered and removed small electronics sometime during the overnight hours while the residents were asleep. Unlocked vehicles were also entered.

Police encourage residents to lock the doors to their homes. Additionally, cars should be locked and items of value should be removed from plain view. This includes the interior door leading to your home from the garage. There have been cases when access to the garage has then provided access to the home.

Glen Ellyn Police Chief Philip Norton said, "Glen Ellyn is a safe community, but it's important for residents to protect themselves from opportunists who will steal from them. Lock your doors, and be vigilant about your surroundings. If you see something suspicious, call 9-1-1."
