***POLICE URGE RESIDENTS TO BE CAUTIOUS***

On March 2, 2015, Glen Ellyn Police were called to a home to investigate a burglary. The elderly residents were approached by three men who identified themselves as employees of "power and light" and said they needed access to the basement. The residents allowed the men into their home and two of the men distracted them while the third stole jewelry from the master bedroom.

The offenders left in a vehicle described as a green, 2007 Buick Rendezvous. Two of the offenders were described as white males in their fifties, one was average height with a large build and dark hair; the other was short with an average build and salt/pepper hair.

Police urge residents to ask for identification from any utility worker who claims to need access to your home. Employees from legitimate utility companies will have proper identification. Protect yourself and your property - do not allow strangers into your home.

Anyone with information regarding this case should call the Glen Ellyn Police at 630-469-1187.
